CAREER OBJECTIVE

Data Science and Business Analytics student with a strong interest in data analysis, artificial intelligence, and technology. Seeking opportunities to apply analytical and problem-solving skills to real-world projects, while continuously developing technical, business, and communication skills and contributing to data-driven decision-making.

EDUCATION

King Mongkut's Institute of Technology Ladkrabang

B.Sc. in Data Science and Business Analytics - Expected Graduation: 2027

PROJECT EXPERIENCE

Capital Market Case Competition 2025 – Strategy & Digital Innovation Project (Plan B Media)

- Conducted strategic analysis on OOH media business and digital growth opportunities
- Designed concepts for asset tokenization, sustainability financing, and sportainment platform
- Evaluated strategic and financial impacts of innovation-driven growth initiatives

AI Agent & Data Engineer (Business Intelligence Project)

- Built a 5-stage BI pipeline with Google ADK to turn natural-language questions into SQL Server queries and insights.
- Developed a Trend Analyst Agent to identify trends and recommend business actions.
- Created a Gradio dashboard with Altair charts and session state for multi-turn data exploration.

ExamHub Online Examination Platform

- Developed an interactive exam platform supporting 20+ CS/Data Science subjects.
- Built an Admin CMS for question management, JSON data import/export, and issue tracking.
- Implemented score analytics and learning progress visualization using Recharts.
- Designed a feedback workflow for reviewing and resolving data/question quality issues.

Cloud SQL Playground AWS Cloud & Database Project

- Built a SQL playground using AWS Lambda, API Gateway and RDS PostgreSQL.
- Implemented JWT authentication and per-user PostgreSQL schema/role isolation.
- Used DynamoDB to track playground sessions and lifecycle state.

ADDITIONAL INFORMATION

- Data & Analytics: Experience analyzing datasets for business and strategic insights through academic and case-based projects
- Business & Strategy Exposure: Participated in CMCC 2025, a national-level business case competition focused on strategy, digital innovation, and data-driven decision-making
- Learning Mindset: Actively learning data analytics, statistics, and data visualization through coursework and self-study
- Teamwork & Communication: Comfortable working in team-based projects and presenting insights to non-technical audiences
